

CUSTOMER COMPLAINT NOTIFICATION

Confidential - Quality Assurance Use Only

Document No.: CCN/API/2026/0418

Date of Complaint: 12 August 2026

Received by: Customer Quality Liaison, Finished Goods / API Desk

1. ORIGIN & CUSTOMER

Complaint Source: Export customer / Formulator

Customer Name: HelixForm Laboratories Pvt. Ltd., Hyderabad

Contact: Head - Incoming Quality, API Warehouse

2. PRODUCT & BATCH IDENTIFICATION

Product Name: Metformin Hydrochloride API

Product Strength / Grade: IP / BP

Pharmacopoeial Status: Complies IP 2022 / BP 2024 (as per CoA)

Batch / Lot Number: MFH260712A

Manufacturing Date: 12 July 2026

Expiry / Retest Date: 11 July 2030

Quantity Affected: 50 kg (2 x 25 kg HDPE drums with double PE liner)

Drum IDs: DR-4418, DR-4419

Manufacturing Site: Unit-II, API Block, Solapur

3. NATURE OF COMPLAINT

Complaint Type: Appearance / Discoloration

Detailed Description:

During incoming visual inspection of Metformin Hydrochloride API batch MFH260712A, the customer observed a pale yellow to off-white discoloration in material from drum DR-4419. The typical appearance on the Certificate of Analysis is white crystalline powder. No unusual odor was noted. The second drum (DR-4418) appeared within the expected white range. The customer has quarantined both drums and requests investigation, retain-sample comparison, and a replacement consignment.

Related testing at customer (in-house, not OOS yet): description fails vs. white crystalline powder; identification by IR still matches. Assay not completed at time of complaint.

4. REQUESTED ACTION

- Investigate manufacturing, drying, and packaging of batch MFH260712A
- Check retain sample and related batches on the same campaign
- Advise on disposition and replacement of 50 kg (2 HDPE drums)
